ACRYLONITRILE STYRENE ACRYLATE

Refined. Modern. Timeless.

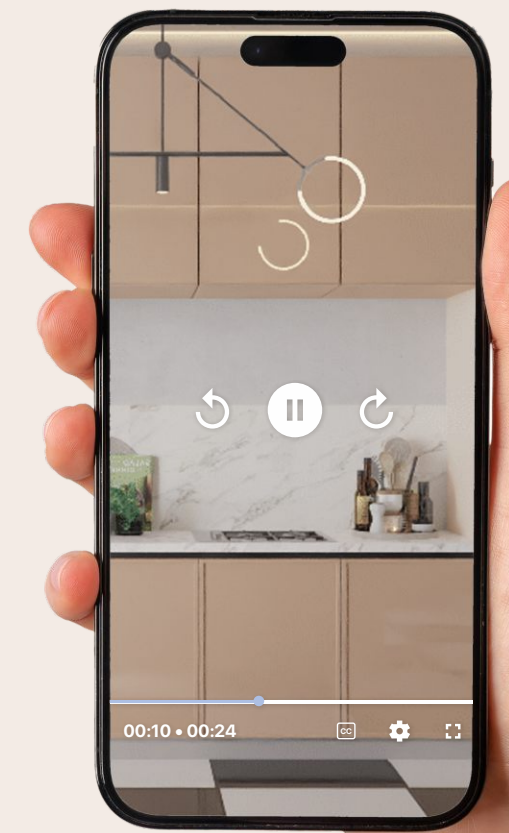

Redefine **MAK'S**

MAK'S ASA Laminate is crafted for spaces that demand durability without compromising on design. Engineered with advanced ASA technology, our laminates are built to withstand extreme weather conditions, intense sunlight, and daily wear making them ideal for both exterior and high-performance applications. Defined by superior UV resistance, long-lasting colour stability, and exceptional surface strength, **MAK'S ASA** Laminates retain their brilliance and finish for years. Each design reflects a balance of modern aesthetics and functional excellence, offering a refined solution for contemporary architecture. At **MAK'S**, innovation meets reliability. Every laminate is a promise of performance, precision, and timeless appeal created to elevate surfaces and endure beyond trends.

MAK’S-ASA ECO-FRIENDLY MATERIAL

Antifinger, anti scratch, soft touch and more environmental friendly

- Using excimer technology, the surface has been improved repair performance and is super scratch-resistant compared to similar MAK’S-ASA products on the market. Extremely delicate.
- MAK’S-ASA material is composed of multi-layer structure and has stable performance
- Comply with EU REACH regulations and food-grade environmental protection requirements,
- It does not contain plasticizers, formaldehyde, heavy metals and other harmful substances, and is truly non-toxic and odourless.
- Weather resistance gray card level 4 or above, specific colors can be weather-resistant for up to 5 years without discolouration;
- The hardness is good up to 1H and has good scratch resistance;
- The stain resistance level can reach level 5 with no obvious change;
- The matte surface feels as smooth as skin, and minor scratches can be repaired with heat.
- Compared with PVC, MAK’S-ASA is more environmentally friendly and has stronger surface anti-fouling and scratch resistance.

It is a very ideal decorative material for door and wall integrated cabinet door panels.
